

## **Prof. Haruhiko Kishima**

Professor and Chairman,  
Department of Neurosurgery,  
the University of Osaka,  
Graduate School of Medicine, Japan

---

Prof. Kishima Haruhiko, M.D, Ph.D. is a neurosurgeon and chairman of the Department of Neurosurgery, Osaka University Graduate School of Medicine.

His primary research and clinical interests are in Functional neurosurgery, Epilepsy Surgery, Brain tumor, Neuromodulation and Neuroimmunology.

Clinical work focuses on the development of novel treatments for Parkinson's disease and the surgical treatment of epilepsy. More recently, he has been investigating changes in brain function in a variety of neurological disorders with the goal of exploiting these changes for therapeutic and functional improvement.

He serves as the board member of the Japan Neurosurgical Society, Japanese Congress of Neurological Surgeons, Japan Epilepsy Society, Asian-Australasian Society for Stereotactic Functional Neurosurgery, and Asia Epilepsy Surgery Congress. He is the President of the Japan Society for Stereotactic and Functional Neurosurgery. He served as the President of the 13th Asian Epilepsy Surgery Congress (AESC2019) the 13th Scientific Meeting of Asian-Australasian Society for Stereotactic Functional Neurosurgery (AASSFN2023), the 61th Annual Meeting of the Japanese Society of Stereotactic and Functional neurosurgery (JSSFN2022), the 25th Annual Meeting of the Japanese Society of NPH, and the 32nd Conference on Neurosurgical Techniques and Tools (CNTT2025). He will be the Congress President of the 86th Annual Meeting of the Japan Neurosurgical Society (JNS2027).
